	detriment to nearby properties created by granting the area variance.
	he desired changes would enhance the property's aesthetics, making the neighborhood altogether more desir
	Explain why the benefit sought by the applicant cannot be achieved by some method, feasible for the applicant to pursue, other than an Area Variance.
	The desired inground swimming pool cannot be set in further due to a patio structure.
	Describe whether the requested Area Variance is substantial.
	The requested variance of 12feet will suffice to fit the desired swimming pool.
	Explain how the proposed variance will not have an adverse effect on the physical or environmental conditions in the neighborhood or district.
	The desired changes would enhance the property's aesthetics, making the neighborhood altogether more desirable.
	Explain whether difficulty is self- created. (Consideration is relevant, but should not necessarily preclude the granting of the Area Variance.

Instructions for Completing

Please refer to this link for step by step assistance: http://www.dec.ny.gov/permits/90156.html

Part 1- Project information. The applicant or project sponsor is reliable for the completion of part 1. Responses become part of the application for approval or funding, are subject to public review, and may be subject to further verification. Complete Part 1 based on information currently available. If additional research or investigation would be needed to fully respond to any item, please answer as thoroughly as possible based on current information.

Complete all items in part 1. You may also provide any additional information which you believe will be needed by or useful to the lead agency; attached additional pages as necessary to supplement any item.

Ke:/zba/zba application

a. A permitted use under the Zoning regulations? b. Consistent with the adopted comprehensive plan?		NO
	X	
6. Is the proposed action consistent with the predominant character of the existing built or natural landscape?	YES	NO
	×	
7. Is the site of the proposed action located in, or does it adjoin, a state listed Critical Environmental Area If yes, identify:	? YES	
		X
8.	YES	NO
a. Will the proposed action result in a substantial increase in traffic above present levels?	1	X
b. Are public transportation service(s) available at or near the site of the proposed action?) 	X
c. Are any pedestrian accommodations or bicycle routes available on or near the site of the proposed act	ion?	1^
9. Does the proposed action meet or exceed the state energy code requirements?	YES	NO
If the proposed action will exceed requirements, describe design features and technologies:		
		X
10. Will the proposed action connect to an existing public/private water supply?	YES	NO -
If no, describe method for providing wastewater treatment:	<u> </u>	X
n/a		
11. Will the proposed action connect to existing wastewater utilities?	YES	NO
If no, describe method for providing wastewater treatment: n/a		Х
12.	YES	NO
a. Does the site contain a structure that is listed on either the State or National Register of Historic places?		X
b. Is the proposed action located in an archeological sensitive area?	· · · · · · · · · · · · · · · · · · ·	Х
13.	YES	NO
a. does any portion of the site of the proposed action, or lands adjoining the proposed action, contain wetlands or other water bodies regulated by a federal, state or local agency?	· .	X
b. Would the proposed action physically alter, or encroach into, any existing wetland or water body? If yes, identify the wetland or water body and extent of altercations in square feet or acres:		. X
	,,	
14. Identify the typical habit types that occur on, or are likely to be found on the project site. Check all that	apply: YES	NO
15. Does the site of the proposed action contain any species of animal, or associated habitats. listed by the State or Federal government as threatened or endangered?	YES	NO
		X
16. Is this project site located in the 100 year flood plan?	YES	NO
17. Will the appropriate action country atoms mostly a discharge with a form which are a sixty and a s	,	X NO
17. Will the proposed action create storm weather discharge, either from point or non- point sources? If yes,	YES	NO
a. Will storm water discharge flow to adjacent properties?		Χ

b. Will storm water discharges be directed to establish conveyance systems (runoff and storm drains If yes, briefly describe)?	s Chamman de	*
18. Does the proposed action include construction or other activities that result in the impoundment of	- .	YES	NO
water or other liquids (e.g. retention pond, waste lagoon, dam)? If yes, explain purpose and size: Inground swimming pool inherently contains water.		Х	
19. Has the site of the proposed action or an adjoining property been the location of an active or closed		YES	NO
solid waste management facility? If yes, describe:	<u></u>		X
20. Has the site of the proposed action or an adjoining property been the subject of remediation (ongoing completed) for hazardous waste? If yes, describe:	; or	YES	NO X

Part 3- Determination of significance. The Lead Agency is responsible for the completion of Part 3. For every question in Part 2 that was answered "moderate to large impact may occur", or if there is a need to explain why a particular element of the proposed action may or will not result in a significance adverse environmental impact, please complete part 3. Part 3 should, in sufficient detail, identify the impact, including any measures or design elements that have been included by the project sponsor to avoid or reduce impacts. Part 3 should also explain how the lead agency determined that the impact may or will not be significant. Each potential impact should be assessed considering its setting, probability of occurring, duration, irreversibility, geographic scope and magnitude. Also consider the potential for short- term, long-term and cumulative impacts.

	nation and analysis above, and any supporting documentation, that significant adverse impacts and an environmental impact statement
is required.	
Check this box if you have determined, based on the inform the proposed action will not result in any significant adverse envir	nation and analysis above, and any supporting documentation, that onmental impacts.
